## Scotch-Brite™ 07440 Series Hand Pads

93

3M™ Scotch-Brite Hand Pads make the toughest cleaning jobs easier. These pads are so versatile they will out-perform steel wool, wire brushes, sandpaper and other nonwoven surface conditioning products and can be used with water or solvents. They resist tearing, splintering, shredding and loading and will never rust.

All Scotch-Brite hand pads measure 6 x 9" (152 x 228 mm). Blending Pads are made of a coarse mineral abrasive. General Purpose Pads are reusable — they rinse clean and are constructed of a nylon web. Ultra Fine Pads are highly conformable.

Select the Scotch-Brite hand pads for your specific abrasion needs and carry them with you everywhere you work. You can use them on virtually any surface material, including all kinds of metals, plastics, composites, ceramics, porcelain, glass and rubber.
