FOCUS ON FEDERAL INSTALLATIONS

5 REASONS TO UTILIZE A GSA SCHEDULE

1. ELIMINATE THE PUBLIC BID PROCESS.

Using a GSA schedule gives you the opportunity to request multiple quotes from different schedules. You can also review awarded pricing instead of posting the opportunity as a public bid. Believe it or not, the typical time to be awarded a public bid is nearly 300 days.

GSA also offers fair and reasonable pricing that could help you avoid requesting and evaluating multiple quotes for smaller purchases, allowing you to save precious time.

2. ENJOY FAST DELIVERY

Items can be delivered within 3-5 days in most cases.

3. SAVE MONEY

Pre-negotiated GSA schedule pricing is known to be fair and reasonable. Customers may also request special quotes for larger orders, which could result in more savings beyond discounted schedule prices. In some cases, there may be a maximum order limit based on SIN number.

4. SAVE TIME

GSA schedule orders average 15 days for procurement and delivery, while open market purchasing could take up to 268 days.

5. SHOP ONLINE

You can conveniently shop 24/7 at GSA Advantage for specific products on the schedule.

THE GREATEST BENEFIT?

GSA schedules make it easier to navigate business with the federal government. Our experienced Government team can help you take advantage of our schedules and federal capabilities during the busiest time of year.
