your business

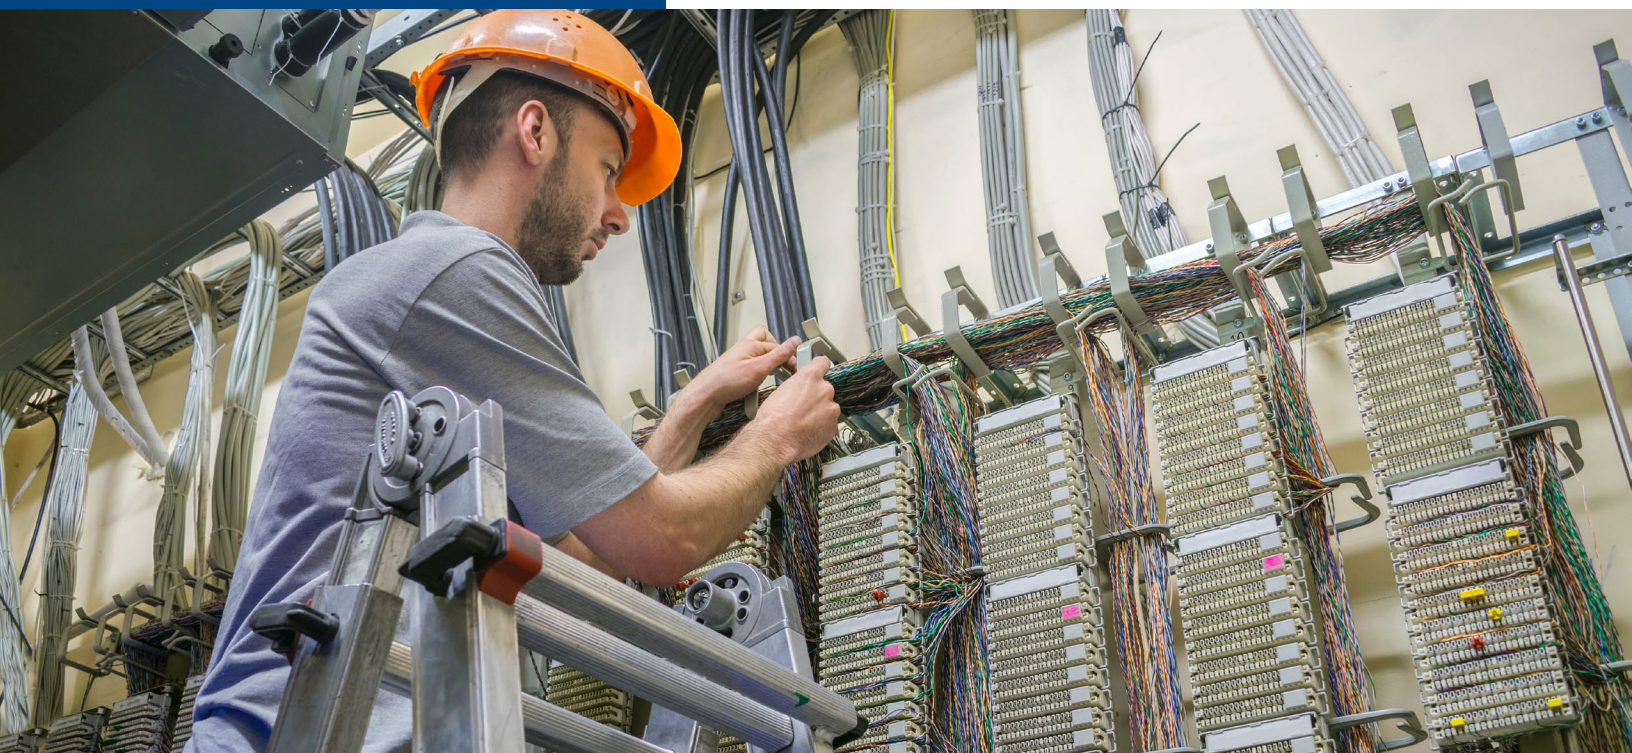

WHY DATACOM CONTRACTORS CHOOSE WESCO | ANIXTER

Supporting your clients with the latest solutions and completing projects on time and within budget is no easy task. It requires a team of skilled contractors, trusted products from world-class suppliers, and a partner like WESCO | Anixter to deliver what you need, when, where and how you need it.

We take a consultative approach to deliver a complete data communications offering, a broad portfolio of related products (safety, electrical, MRO and more), and value-added services designed to support data communications contractors like you.

With WESCO | Anixter, you have access to:

- Decades of experience and leadership in the data communications space focused on creating value-added partnerships with contractors across the globe.
- The industry's broadest product and service offering, supported by world-class suppliers and dedicated supply chain specialists.
- Our Technology & Support Services (TSS) team, made up of more than 65 technical specialists and engineers, to help support your project goals.

ENHANCING PRODUCTIVITY

Value-Added Services for Datacom Contractors

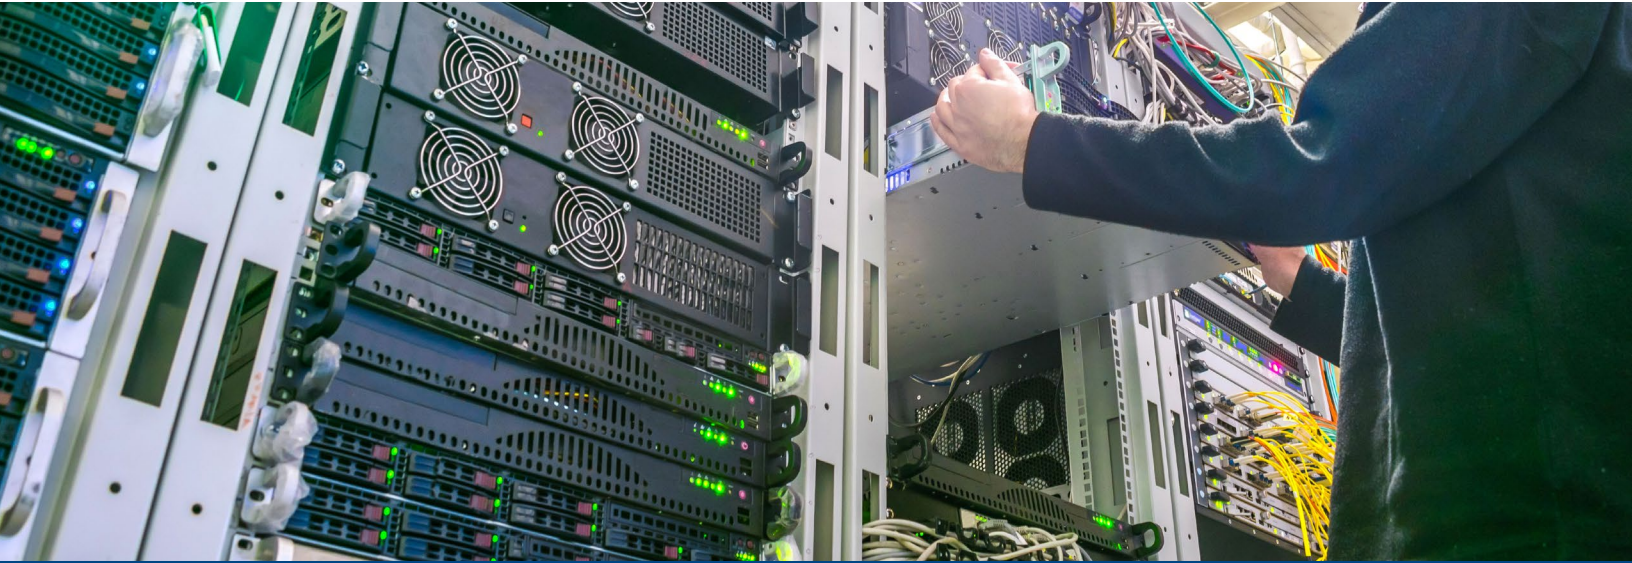

The WESCO | Anixter communications & security team can help you standardize common solutions to drive down costs, simplify procurement and improve delivery times. We also specialize in fully customized solutions to meet the needs of any project. If you're looking to improve productivity, profitability and gain a true competitive advantage, our services deliver.

- Kitting and labeling
- Cutting services
- Rack and stack
- IP addressing and programming
- Customized onsite logistics
- eBusiness solutions
- Customized supply chain solutions

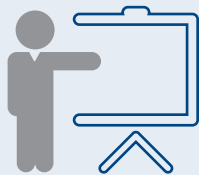

MORE+ NEXT-GENERATION SOLUTIONS

As the world becomes even more connected through the Internet of Things (IoT), end users are looking for ways to drive more value from their investments. Contractor partners are able to deliver the latest in next-generation technologies to their clients by leveraging WESCO | Anixter's digital transformation solutions and specialized Technology & Support Services (TSS).

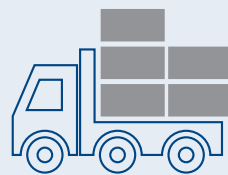

WESCO | Anixter's vast experience in the electrical, automation, security, ProAV and lighting businesses enable us to deliver holistic solutions that maximize the productivity of traditional data networks — creating true next-generation smart building infrastructures.
